Summary

This procedure establishes general guidelines for the permanent “naming of things” on campuses of the State University of New York (University).

Process

1. At least every five years, each campus shall submit to the Chancellor for approval guidelines for campus naming opportunities.
2. All permanently named building and grounds must be approved by the campus president and college council, and all other physical assets and non-physical assets must be approved by the campus president and college council and/or campus foundation, as appropriate.
3. All naming opportunities that involve gifts of \$1 million or more shall be approved by the Chancellor and the State University Board of Trustees.
4. All naming opportunities that involve gifts of less than \$1 million shall be approved by the campus president and college council and/or campus foundation, as appropriate.
5. All naming opportunities that are inconsistent with the campus’s naming opportunity guidelines shall be approved as follows:
 - i. If the value of the related gift is \$1 million or more, by the Chancellor and the State University Board of Trustees;
 - ii. If the value of the related gift is between \$100,000 and \$999,999, by the Chancellor or designee;
 - iii. And if the value of the related gift is less than \$100,000, by the campus president.
6. Each naming opportunity should be reviewed carefully for compliance with applicable law, including law related to prohibited gifts and ethical principles, especially where there is some direct or indirect business or other continuing relationship between the donor and the State

University of New York, its officers or employees. Questions concerning applicable law should be referred to the Office of University Counsel. Chief advancement officers with other questions or concerns should contact the University Office of Philanthropy and Alumni Affairs.

7. All proposed names should be held in confidence during the review and approval process (there should be a minimum of communication about the proposed naming of things on a campus before approval has been given).
8. Each campus shall maintain a record of all named physical and non-physical assets and provide a copy of the record to the University annually.
9. Should a naming opportunity have been promised by a campus sometime in the past for a future or planned gift, such a gift and naming opportunity might be considered, “grandfathered”, from these policies if the campus can prove the gift and naming opportunity was accepted and documented in good faith and that compliance with the donor’s intent does not otherwise breach SUNY policy.
