

The State University
of New York

Transfer Path

Discipline: Adolescence Education Inclusive Education (7-12) Generalist

SUNY transfer paths outline the knowledge and skills that are essential for students to complete during their first two years of study for a major in a given discipline. The coursework described below will meet degree requirements at all SUNY campuses offering majors in the above discipline. If you complete this coursework successfully, you will be well-positioned to finish your degree with an additional two years of study at your SUNY transfer college.

Use this transfer path to discover both courses related to your major and general education requirements that will prepare you for transfer. Click on each course to view a course description. Then, to map your first two years of courses, visit [Planning Your Coursework](#).

Lower-Division Major Requirements

The courses below are specifically related to your field of study and are part of the requirements for graduation in your major:

- [Foundations of Education](#)
- [Adolescent Psychology](#)
- Foreign Language (two courses in the same language)

Additional requirements are outlined in the Lower-Division Major Requirements section of the SUNY Transfer Path for the discipline you intend to teach. Click to view the applicable path:

- [Biology](#)
- [Chemistry](#)
- [Earth Science \(Geology\)](#)
- [English](#)
- [Mathematics](#)
- [Physics](#)
- [Social Studies \(History\)](#)
- [Spanish](#)

Advising Notes

For dual certification in an Adolescent subject matter field (see above) and Adolescent Inclusive (7-12) Generalist Education, students must complete both an academic major of at least 30 credits and a minimum of six credit hours in each of the following areas: English, Social Science, Science and Mathematics, many of which are included in the General Education Requirements below.

Advising Notes (cont'd)

A careful selection of General Education courses can reduce the total number of courses needed to complete the dual certification program.

There may be additional courses in your major which would transfer, or courses which could be substituted for one of the above. These may be established on a case by case basis. Please see an advisor at your transfer campus to explore those options.

General Education Requirements

General Education courses are related to key academic disciplines and may be outside your field of study. To earn a SUNY bachelor's degree, you must earn 30 credits in at least seven of the following ten skill areas, and demonstrate two competencies. For AS programs in Engineering, students must satisfy five of the following ten skill areas.

Skill Areas:

- Basic Communication (required)
- Mathematics (required)
- American History
- Other World Civilizations
- Foreign Language
- Social Sciences
- Humanities
- The Arts
- Natural Sciences
- Western Civilization

Competencies:

- Critical Thinking (required)
- Information Management (required)

General Education requirements vary by campus and by major. However, if you satisfy the SUNY General Education Requirement (SUNY-GER) area at one campus with a grade of C or higher, you will have met that SUNY-GER area at every other SUNY campus. Visit [Campus Requirements](#) to determine the skill areas required by each campus and the courses available within those areas.
