Physical Therapy: PT is a licensure program requiring a master’s or higher degree. Typically, a student earns an undergraduate degree in a program such as biology, health science or exercise science before undertaking graduate work. Six-year doctorates are also available. Contact a campus of choice for guidance on pursuing a career in PT. SUNY campuses with registered programs in PT are: University at Buffalo (see Exercise Science), Upstate Medical University, SUNY Downstate Health Sciences University and Health Sciences Schools at Stony Brook. Students applying to a 3+3 program at Upstate Medical must complete the Upstate application as well as an application to the affiliated 3+3 campus.

Pre-law & Pre-medicine
Neither Pre-law nor Pre-medicine is a major program of study. If you would like to attend law school or medical school, a host of options are available to you as an undergraduate. Law schools routinely accept students with degrees in the humanities and social sciences. Medical schools routinely accept students with degrees in the natural sciences. This is not to say you must major in one of these areas. You should consult with your academic advisor to determine your best course of study.
