COMMITTEE PURPOSE

The Academic Medical Centers and Hospitals Committee will provide oversight and policy formulation associated with the University's health professions education and health delivery system. The Committee is responsible for creating policies reflecting a balanced educational, administrative and financial environment for the University's health science centers and academic campuses offering professional medical education programs.

The charge of the committee is to review and make recommendations, when necessary, to the Full Board on:

- Excellence in Medical Education and health professions education
- Hospital and clinical structure, governance and operations, {in cooperation with Finance & Administration Committee} issues relating to funding and finances
- SUNY's role in meeting the needs of a Healthier New York
- Management and operation of clinical practice plans
- Fulfillment of quality assurance obligations and requirements
- Clinical affiliations with outside institutions and organizations
- In cooperation with the Research & Economic Development Committee, issues relating to Research Excellence in Academic Health Center Clinical & Translational Research (REACH)
- Other policy issues affecting the delivery of education and services in health care fields
