October 3, 2014 - 8:30am to 12:30pm

100 Seymour Rd

Utica, NY 13502

The event will be held at the Wildcat Fieldhouse on the SUNYIT campus. There will be a panel of experts discussing "Hot Topics in Manufacturing" and a panel of recent graduates working in manufacturing who will address the student attendees. Noted pollster and author, John Zogby will present, "First Globals-

Understanding, Managing, and Unleashing the Potential of our Millennial Generation." Immediately following the Conference/Expo there will be a special showing of the documentary, "American Made"

CITEC Business Solutions - Watertown Event

October 2, 2014

Jefferson Community College

1220 Coffeen St.

Watertown, NY 13601

Through a collaboration of CITEC, BOCES, Clarkson University, **Clinton Community College**, Jefferson County Local Development Corp, Lewis County Economic Development, North Country STEM Network and the Workforce Investment Boards serving the North Country region.

Join leaders from local industry as they share details on the career opportunities that will support tomorrow's manufacturing needs. This informational session is geared toward students and the people who help guide them -- educators, guidance counselors, administrators and parents. Keynote presentation by NYAB Mike Hawthorne, special insights also provided by Rob Oram from CITEC on the growing demand for qualified, innovative workers to support American Manufacturing, discussion of available training / education programs and displays by local manufacturers.

CITEC Business Solutions – SUNY Canton Event

October 3, 2014

SUNY Canton, 34 Cornell Drive

Canton, NY 13617

Join leaders from local industry as they share details on the career opportunities that will support tomorrow's manufacturing needs during the morning program. Attendees will then rotate through three activities: robotics presentation by Clarkson University, displays by local manufacturers & a tour of the college's Manufacturing Technology Center. This event is geared toward students and the people who help guide them -- educators, guidance counselors, administrators and parents.

Participants are then invited to stay, grab lunch and join us in the college's theater for a 1 PM Virtual Tour of Alcoa's Davenport facility.

CITEC Business Solutions – SUNY Plattsburgh Event

October 3, 2014

Clinton Community College

136 Clinton Point Drive
Plattsburgh, NY 12901

Join leaders from local industry as they share details on the career opportunities that will support tomorrow's manufacturing needs. This informational session is geared toward students and the people who help guide them -- educators, guidance counselors, administrators and parents. Special insights on the growing demand for qualified, innovative workers to support American Manufacturing by CITEC, discussion of available training / education programs and displays by local manufacturers.

SUNY Adirondack/WSWHE BOCES Event

October 3, 2014 - Private Event
27 Gick Road
Saratoga Springs, NY 12866

SUNY Adirondack offers a unique collaboration between higher education, BOCES, school districts and business & industry partners. The Advanced Manufacturing Day will provide a host of activities to motivate students to consider careers in the advanced manufacturing field. Students will rotate through each of the planned activities. A site visit to one of our business partners, Irving Tissue will be a key focus. In addition to site visits, students will participate in a career fair of regional manufacturing businesses. The college will provide team building activities and improvisation workshops with a focus on communication and problem solving skills.

Schenectady County Community College Event

October 9, 2014 - 6:30pm to 8:30pm
Schenectady County Community College
78 Washington Avenue
Schenectady, NY 12305

Special screening of the American Made Movie followed by a panel/discussion. The American Made Movie is a documentary released in September, 2013 that examines the factors contributing to the decline of the American manufacturing workforce and the integral role consumerism may play in getting the economy back on track. Post film panelists include representatives from local manufacturing, education and related groups.

Museum of Innovation and Science Event

October 8, 2014 - 6:00pm to 8:30pm
15 Nott Terrace Hts.
Schenectady, NY 12308

The Museum of Innovation and Science will host a Mo-Tech & CTE tabling & networking event in the atrium at 6:00 p.m. followed by a presentation & panel discussion at 7:00 p.m. featuring the Center for Advanced Technology at Mohonasen (a partnership between Capital Region BOCES, **Schenectady County Community College** & Mohonasen Central School District) moderated by Representative Paul Tonko (NY-20).

Farmingdale State College Event

October 3, 2014 - 9:00am to 11 am
2350 Broadhollow Road
Farmingdale, NY 11735

In partnership with the Long Island Forum for Technology and Arkwin Industries, the Institute for Research and Technology Transfer (IRTT) and the Mechanical Engineering Technology Department at Farmingdale State College are offering presentations and tours of our automated Manufacturing Facilities. The goal of the presentation and tour is to improve the public awareness of manufacturing careers and the value of manufacturing to the United States' economy.
